SUMMARY

Recent Computer Science graduate with a solid foundation in data structures, algorithms, and software development principles. Demonstrated ability to learn new technologies quickly and adapt in fast-paced environments. Strong problem-solving skills with a passion for building efficient, scalable software solutions. An effective communicator and collaborative team player eager to contribute to innovative projects and grow as a software engineer.

EDUCATION

Wilmington University – BS in Computer Science

Graduation Date: May 2024

- Dean's List - Spring 2021, Spring 2022, Fall 2022

TECHNICAL SKILLS

Languages: Javascript, Python, C#, Java, Kotlin

Technologies: React, NodeJS, .NET, Angular, GIT, MySQL

PROJECTS

Scratchify (NextJS, React)

April 2023 - December 2023

- Developed a full-stack web application enabling users to create, share, and discover recipes all in one common place.
- Built RESTful APIs with integrated database and implemented secure user authentication using Supabase, supporting both stateful and stateless data retrieval from the cloud.
- Designed and implemented comprehensive CRUD functionality with effective row-level security to ensure users have complete control over their content and its privacy.

My Web Storage (Angular, .NET)

October 2024 - Present

- Developed a personal full-stack web application for managing and accessing files on a home server without reliance on third-party cloud providers.
- Applied strong security practices using .NET's built-in authorization methods to protect files and application access on both the frontend and backend.
- Utilized Docker to build and deploy containers on a self-hosted Raspberry Pi, serving an Angular frontend, .NET backend, and Nginx proxy for efficient and secure delivery.

EXPERIENCE

Cashier, Walmart– Springfield, MO

2019 – Present

- Assist colleagues with troubleshooting and navigating POS systems and handheld devices
- Perform cash drops and pickups, and replenish self-checkout machines with appropriate cash amounts
- Oversee and coordinate team members' breaks and lunches as delegated by the direct manager
- Utilize inventory management systems to track merchandise and identify item locations efficiently
- Resolve device connectivity issues for coworkers, including troubleshooting cloud access problems
