SUMMARY

Computer Science graduate with a strong foundation in algorithms, data structures, and modern software development. Quick learner with proven ability to build efficient, scalable applications. Strong communicator and collaborative problem-solver with hands-on experience in full-stack development, UI/UX design, and performance optimization. Excited to contribute to impactful engineering projects and continue growing as a software developer.

EDUCATION

Wilmington University – BS in Computer Science

Graduation Date: May 2024

- Awards: Dean's List (Spring 2021, Spring 2022, Fall 2022)

TECHNICAL SKILLS

Languages: Javascript, Python, C#, Java, Kotlin

Technologies: React, Angular, Node.js, .NET, Git, MySQL, Vite, Figma, Docker

PROJECTS

Music Theory Application (Tone Tools) | *Svelte, Vercel*

January 2026 - Present

- Built a web application to teach and provide practice tools for music theory concepts.
- Designed UI using Figma, focusing on clean UX and cross-device consistency as well as best practices for designing UI.
- Optimized performance using browser dev tools to reduce memory usage and minimize bundle size.
- Created a custom NPM package for rendering music staves using SVG, including classes for note placement and formatting logic.
- <https://tonetools.vercel.app>

Self Hosted Google Drive Clone (My Web Storage) | *Angular, .NET, Docker*

December 2024 - June 2025

- Developed a personal full-stack file management platform hosted on a home server to eliminate reliance on third-party cloud storage.
- Implemented secure access control using .NET authorization patterns across both API and frontend.
- Deployed containerized Angular, .NET, and Nginx services on a self-hosted Raspberry Pi using Docker for efficient, secure delivery.
- <https://github.com/DrakeB1234/MyWebStorage>

EXPERIENCE

Cashier, Walmart— Springfield, MO

2019 – 2025

- Assisted associates with troubleshooting POS systems, handheld devices, and connectivity issues.
- Performed cash drops, pickups, and managed self-checkout machine cash levels.
- Helped coordinate team member breaks and workflow as directed by management.
- Used inventory management software to locate merchandise and maintain stock accuracy.
- Resolved cloud access and device syncing problems for coworkers to minimize downtime.
